

EDUCATION	Stony Brook University , USA	08/2025 - Present
-----------	-------------------------------------	-------------------

- Research topic: mechanistic interpretability
- Supervised by Prof. Dimitris Samaras and Prof. Mahdi S. Hosseini

- Research topic: computational pathology
- Supervised by Prof. Jin Tae Kwak

1 of 2

- GPC: Generative and General Pathology Image Classifier
Anh Tien Nguyen, Jin Tae Kwak
MICCAI 2023 - Best Paper Honorable Mention Award

PROFESSIONAL SERVICE

Reviewer

IEEE Transactions on Medical Imaging
CVPR 2026, NeurIPS 2026

TEACHING EXPERIENCE

Stony Brook University, USA

08/2025 - Present

- Information Systems, Software Engineer

Korea University, South Korea

09/2024 - 12/2024

- C Programming

Google Cloud Certified Trainer, Vietnam

12/2021 - 02/2023

- Online seminars for Machine Learning on Google Cloud Platform

INDUSTRY EXPERIENCE

Cloud Ace, Vietnam

10/2021 - 02/2023

Machine Learning Engineer

- Design and implement machine learning solutions on Google Cloud Platform.
- Deploy and manage scalable data pipelines for training and inference.
- Conduct technical sessions on machine learning and data engineering.

AWARDS

MICCAI 2024 - LEOPARD Challenge

10/2024

Ranked 6th in the challenge of predicting biochemical recurrence of prostate cancer.

Korea University - Foreign Global Leader Scholarship

08/2024

Achieved a for excellent GPA, research projects, and publications.

Brain Korea 21 Scholarship

03/2024

Achieved a scholarship for excellent research projects and publications.

MICCAI 2023 - MedAGI Workshop

10/2023

Achieved *Best Paper Honorable Mention* Award.
